

Document Processing Test

This sample page contains real text rendered into an image. The entire page is rasterized to simulate a scanned document.

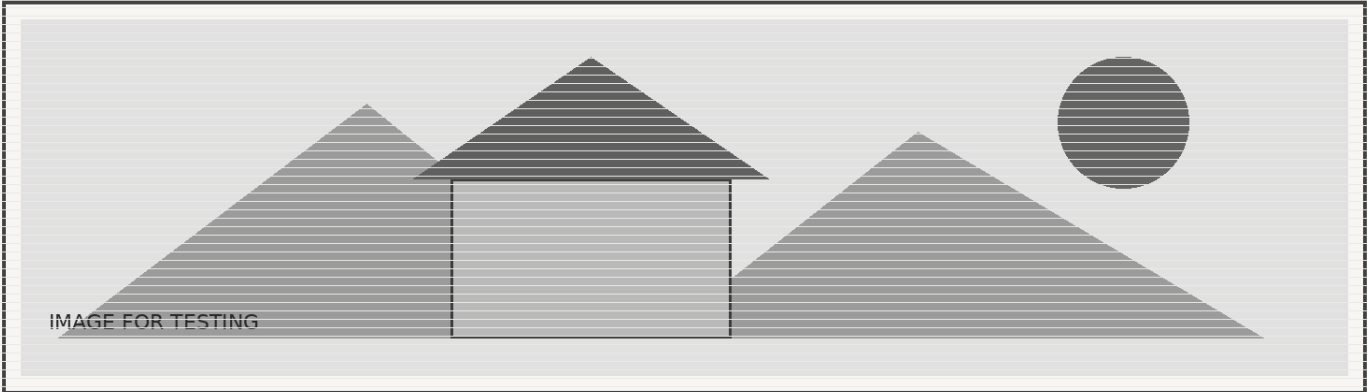

The document is designed for testing OCR, text extraction, page detection, image extraction, and PDF rendering.

Important test values: Document ID TEST-2026-001, Version 1.0, Date 03 October 2026.

Sample Data Table

Item	Description	Quantity
001	Scanned page test	2
002	OCR text sample	15
003	Image extraction test	1

Embedded Test Image

OCR and Image Extraction Test

This is the second page of the sample scanned PDF. The text is part of the page image rather than a selectable PDF text layer.

You can use this page to test whether your software can recognize multiple paragraphs, headings, numbers, and labels from a scan.

Sample values: Invoice No. INV-10482, Amount 12,450.75, Reference ABC-9876, Status: TEST COPY.

Sample Data Table

Item	Description	Quantity
001	Scanned page test	2
002	OCR text sample	15
003	Image extraction test	1
